

A HISTORY IN
Chocolate Making

COMPANY PROFILE

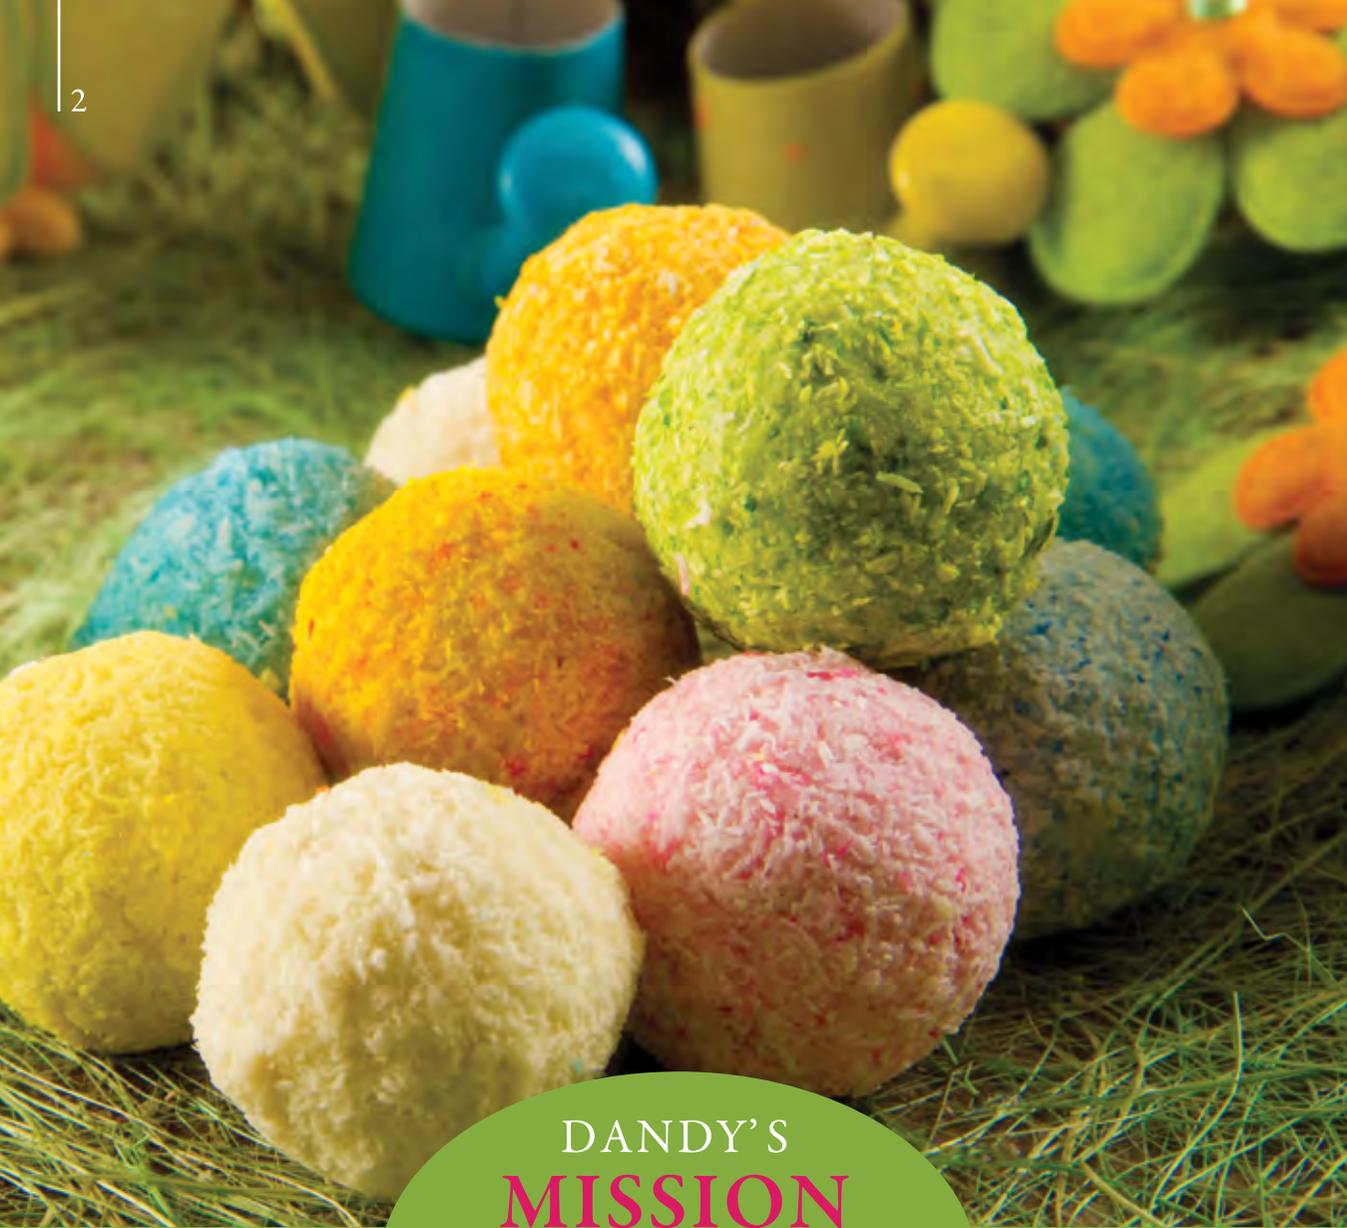

DANDY'S HISTORY

Dandy Chocolates' story started when Mr. Mustafa Saadeh, passionate about finely-tuned chocolate making came back from Switzerland –where he lived for a while to learn further the art of chocolate making- with a Swiss chef and founded a factory in a beautiful little village in the mountains of Lebanon, an ideal place for chocolate production.

Mr. Saadeh passed on the passion, and the story is yet to be fully written. (We want to write the rest of the story with you).

DANDY'S VALUES

At Dandy, we are committed to preserve and even take further the momentum we built as to craftsmanship, quality, and safety. We know we cannot overdo it as to your safety, and this is why one of the owners has made a point of becoming a food safety consultant.

This is why we are adamant on becoming HACCP fully certified, and have enthusiastically started the process. This is also why as part of an exciting expansion plan, we have included an eco-friendly building. We strive to excel and garnish your loyalty, our staff's loyalty, and we commit to remain attentive to your comments and feedback. Above all, we never compromise the integrity and quality of our products.
